

## United States Senate

August 11, 2010

Dear New Mexico STEM Advocate:

You are invited to attend a discussion about science, technology, engineering, & math (STEM) education in southern New Mexico. This important half-day meeting will outline the framework and infrastructure necessary to create a statewide STEM network, under the leadership of Innovate-Educate New Mexico and partner organizations like yours. The meeting is being co-hosted by Melanie Goodman of my Las Cruces office and Jamai Blivin, President of Innovate-Educate NM.

As a leader on education and economic development issues in New Mexico, your participation is vitally important. This meeting will bring together key partners – including policy makers, P-20 educators, economic development groups, and industry representatives – to discuss current STEM activities in southern New Mexico, to identify gaps, and to begin the process of forging long-term relationships with one another to improve STEM education throughout the state. The logistics of the meeting are as follows:

Location: Hotel Encanto, Las Cruces, NM  
Date: September 9, 2010  
Time: 10:00 a.m. to 2:00 p.m.

Kindly RSVP to Jamai Blivin at [jamai.blivin@innovate-educate.org](mailto:jamai.blivin@innovate-educate.org) no later than August 25<sup>th</sup>, as there is limited space. If you have additional questions, you may also feel free to contact Melanie Goodman at (575) 523-6561. Please note that this invitation is non-transferable.

We hope that you will be able to attend, and we look forward to working with you to improve STEM learning outcomes for all students in New Mexico.

Sincerely,

Jeff Bingaman  
United States Senator
